Telecom Exchange and DatacenterDynamics Converged Events to Collaborate with the London Internet Exchange (LINX)

LINX Members to Receive Complimentary Joint Passes to Attend DatacenterDynamics Converged Europe and Telecom Exchange London Nov 18-19

LONDON, UK – November 5, 2015– Telecom Exchange (TEX), the industry networking event for high-bandwidth network operators, and DatacenterDynamics Converged Europe, the European data center and cloud transformation event, announce today their collaboration with The London Internet Exchange Group (LINX), global leaders of Internet Exchange Points (IXP), to offer LINX's community members complimentary joint passes (valued at £1,139.00) to attend both colocated events on Wednesday, November 18 and Thursday, November 19 at The ExCeL, Royal Victoria Dock in London.

"More than 650 LINX members based in 65 countries worldwide will receive free access to more than 3,000 telecom, colocation and enterprise professionals expected to be in attendance at the DCD Converged and TEX events," states Jaymie Scotto Cutaia, CEO and Founder of Jaymie Scotto & Associates (JSA), the organisers of Telecom Exchange. "Access also permits LINX members the opportunity to attend our event's CEO Roundtables, featuring LINX's CTO Richard Petrie, and complete access to all other DCD Converged event activities throughout both days."

DCD Converged Europe is the European Data Center and Cloud Transformation event has been organised to help attendees navigate through the always-evolving industry. This year's event, featuring over 100+ hours of expert presentations, interactive workshops and innovation labs and an Expo floor, will explore the Internet of Things, Smart Cities, Big Data, cloud, SDN and more.

Telecom Exchange, collocated with DCD Converged Europe, brings together voice and data wholesale telecoms service providers to close business, attracting leading buyers and sellers of wholesale data and transit providers, who need to connect to the 'people behind the networks' to negotiate and close capacity deals.

"DCD Converged Europe has had several years of success bringing together data center operators and the enterprise market," continues Dan Scarbrough, Co-Founder of DatacenterDynamics. "With the addition of Telecom Exchange as a newly collocated event this year, and through this new partnership with LINX, we are creating a robust marketplace for the buying and selling of connectivity, and giving attendees the opportunity to meet multiple carriers and colo providers all in one day."

About LINX

The London Internet Exchange (LINX) is a global leader of Internet Exchange Points (IXP). Our company ethos and aspirations result in constant growth and improvement in our services and as a result, members have access to the most attractive peers at the lowest cost.

With over 650 members connecting from over 65 different countries worldwide, LINX members have access to direct routes from a large number of diverse international peering partners. Using LINX allows a reliable exchange of traffic with increased routing control and improved performance.

As a not-for-profit organisation, LINX focuses on investing their service and membership fees into strengthening network services. This ensures that their infrastructure is as up to date as possible and that LINX remains at the forefront of the IXP industry. By doing so, LINX can confidently provide its members with improved network performance, low latency and more control. Visit https://www.linx.net/index.html to learn more.

About DatacenterDynamics

DatacenterDynamics is a brand of DCD Group, a global B2B media and publishing company that develops products to help senior professionals in the world's most ICT dependent organizations make risk-based infrastructure and capacity decisions.
